Update of IRR Coding Manual to the TTP Coding Manual

Finalizing the next version of RIFDS
  - Regional review session in two weeks
Long Range Transportation Plans

- Essential that it is updated and maintained in a timely and transparent manner
  - Tribal priority listing
  - TTIP
- Identifies your NTTFI
- Proposed regulations emphasizes the importance of the document and informs the stakeholders of your transportation plans.
Bridge Program Management

- National Bridge Inspection Standards
  - Establish “bridge management program”
  - Implement inspection requirements
  - Submit data to national database (FHWA):
    - National Bridge Inventory (NBI)

- MAP-21: new requirements
  - Tribally-owned public bridges must now be inspected
Bridge Program Management

- BIA – Bridge Program
  - Coordinate the data management, inspections & reporting
    - Routine
    - Fracture Critical
    - Underwater
  - ~930 BIA-owned bridges
  - ~12 Tribally-owned bridges - 1st submittal this year
- Submit annually to the NBI
- Utilize four Contractors for field inspections
- New software: InspecTech (Bentley Systems, Inc)
Bridge Program Management

- 23 CFR 661 - IRRBP
  - Indian Reservation Roads Bridge Program
  - Funding to design/build “deficient” bridges
  - Managed by FLH-TTP
  - Funding distributed at end of each Quarter

- Regulations to be updated per MAP-21
  - Dates to be announced
Utilizing Web-based tools (GIS) to improve program oversight & management

Incorporate results of new\updated regulations for the 25 CFR 170 [TTP] & 25 CFR 169 [ROW]

Complete newest rewrite of the Road Inventory Field Data System (RIFDS) & the TTP Inventory Coding Guide

Incorporation of the new BIA and Tribal bridge numbering methodology, specific to Inventory training sessions
